

**Residency Information:**

Duration/Type:	12 mo. residency
Number of Positions:	1
Application Deadline:	1/31/2018
Starting Date:	7/9/2018
Estimated Stipend:	\$52,500
Interview Required:	Yes

**Residency Special Features:**

Legacy Health is comprised of two tertiary care teaching hospitals and a children's hospital (Randall Children's Hospital) located in downtown Portland and four community hospitals located in suburbs of Portland and Southwest Washington. In addition, there are over seventy primary care, specialty, and urgent care clinics, a research facility, a central microbiology lab and a collaborative behavioral health center.

Through the course of the year, this program will mentor the resident to build on the foundation of knowledge and skills achieved in their prior experiences to develop expertise in infectious diseases pharmacotherapy while also teaching skills sought after in today's job market.

The core experiences include the infectious diseases consultative services, who care for a spectrum of patient populations throughout the health system, antimicrobial stewardship, microbiology and molecular diagnostics, teaching, research and informatics. A variety of elective experiences are available, promoting flexibility in accordance to the resident's goals, strengths and needs.

**Fringe Benefits:**

Benefits include paid-leave (includes vacations, holidays, illness), health, life, dental plans, travel allowance and a reduced cost public transportation pass

**Special Requirements for Acceptance:**

Eligibility for Oregon and Washington pharmacist licensure required. Application through PhORCAS, three letters of recommendation using standardized form (one of which must be from PGY1 residency program director), CV, letter of intent, and pharmacy school transcripts.

735

**Site Special Features:**

Legacy Health is known in the community for providing an excellent learning environment and exceptional opportunities to contribute to patient care. The pharmacy departments provide decentralized patient care including collaborative drug therapy protocol management, with a strong presence in all clinical areas within Legacy. Legacy Pharmacy Services is committed to medication management for the safety of our patients.

The region boasts snow-capped mountains and the Pacific coast both within 60 miles. The climate is mild (July high around 80 degrees, January low around 35 degrees) with about 37 annual inches of rain and very occasional snow to keep the landscape lush and green. There are a wide variety of outdoor activities, including hiking/backpacking, skiing, snowboarding, fishing, bicycling, rock climbing, and more.
